WORK

EXPERIENCE

Temporary Retail Associate at TK Maxx, Grimsby

TK Maxx in Grimsby are looking for a retail associate to work on a part-time basis. You'll be part of a tight-knit team, working on the cash registers one minute and guiding customers on the shop floor the next. You'll be an ambassador for the business - positive, enthusiastic and approachable. You'll have a great team spirit and a natural warmth when you're dealing with customers who'll be just as diverse as your colleagues.

Click [here](#) for more information or to apply.

Virtual Medicine & Healthcare Work Experience with Lincolnshire NHS Talent Academy

Explore roles and career pathways with Lincolnshire's NHS Talent Academy! Taking place from 9th December – 11th December, this virtual work experience will enable you to meet with NHS professionals from multiple departments and roles. You'll work on a project over 3 days, as you meet with, learn from, and complete tasks with real NHS staff – even some from jobs you may not have heard of before!

The deadline to apply is 27th November 2024 – click [here](#) for more information.

Assistant Football Coach with First Kick Football, Grimsby

Are you passionate about football and dedicated to empowering young players? First Kick Football are seeking an Assistant Football Coach with an enthusiastic and outgoing personality to join their team in the Grimsby area, primarily focusing on sessions for Primary school-aged children. This will require working on Tuesday evenings at Ormiston Maritime Academy from 5pm – 8:30pm.

You'll collaborate with coaching staff to design dynamic activities, drills, and games that emphasize skill development and teamwork, support the coaching team in maintaining safety, and provide enthusiastic and encouragement and mentorship to players.

Click [here](#) for more info.

Drax Sprint: Carbon Capture

In this Sprint with Drax, you'll take on the role of a Process Engineer in the sustainable energy industry. Your task is to review the new carbon capture process at Drax. You'll need to consider any potential hazards associated with the carbon capture process and ways to mitigate any disruptions that could impact the process and people's safety.

Think you've got what it takes?

APPLY HERE

Virtual Work Experience

9th - 11th December

10am - 2pm

Age: 14-19

Deadline: 27th November

WORK EXPERIENCE

WHY DO WORK EXPERIENCE?

- To gain valuable transferable skills
- To have something interesting to put on your CV
- To decide if it is the right career choice for you

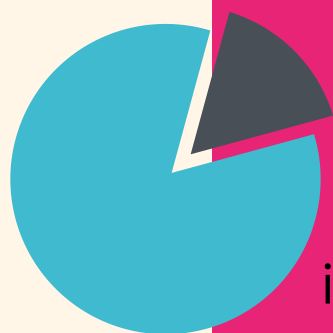

WHAT IS IT?

You could do work experience virtually, shadowing someone or where possible get involved doing the actual job. If work experience is not possible you could do a different role in the same environment to gain a better understanding of that work place.

HOW DOES IT WORK?

Have a think about what you would like to do or book a Careers Appointment to help you figure it out. Email me as much information as you can. I will add you to my list and send you anything that comes up that may be relevant to you.

PAST OPPORTUNITIES...

To help give you some ideas of what you could do, previously we have had students in [these](#) positions.

The Future is Female: STEM Careers at bp

Join this webinar to learn more about the range of brilliant STEM Apprenticeship opportunities at bp. Under a third of the STEM workforce in the UK are women, and bp are determined to change that! This is a chance for students, parents, and teachers to network with the inspiring women onboard bp's apprenticeship programmes. They will be sharing 'day in the life' insights, as well as how this opportunity has launched their career.

This will take place on Tuesday 26th November from 6:30 – 7:30pm.

Click [here](#) to register.

Exploring your careers options - degree programmes with PwC

The session will help to explain some of the misconceptions around degree apprenticeships and programmes and outline the stages of our application process. No matter what next steps you're considering, this session will help you to explore a range of opportunities available to you. You'll have the opportunity to hear from some of their people who joined from school or college onto these programmes and have the opportunity to have your questions answered!

This will take place on Thursday 21st November from 4:30 – 5:30pm. Click [here](#) for more information!

Why Is There Only One Species of Human? With Gresham College

We are the only human species on the planet today. But for most of our history we have not been alone. Fossil and genetic evidence has revealed a diverse and fascinating set of human-like species, from Neanderthals to Denisovans, to Homo Floresiensis (The Hobbit) and more. We'll meet many of them in this lecture, investigate why they died out and reveal why some of them are much closer relatives than you might think.

A SPOTLIGHT

ON...

Agriculture & Environment

From the food we eat to the air we breathe, careers in agriculture & environment support things that are crucial to our everyday lives.

What is agriculture and environment?

The agriculture and environment sector has never been more important than it is today. People who work in this industry deal with how we use, maintain and protect our natural resources, including the food we eat – issues that are hot topics in the modern world. Growing concerns about the environment and plans to boost British farming have spurred politicians and the public into action, leading to a bigger focus on being environmentally-friendly and buying locally produced food. This means more and more jobs are becoming available in the agriculture and environment sector. And as the industry has become more sophisticated, so too have the roles.

What agriculture and environment jobs can I do?

There are plenty of jobs available in Agriculture and Environment, including Botanists, Ecologists, Environmental Consultants, Farmers, Florists, Meteorologists, Tree Surgeons and so many more.

Is a career in publishing and media for me?

If you care passionately about the environment, love working with plants or animals or just can't get enough of the great outdoors, then this is the industry for you. The wide range of roles and skill levels means there are career paths for graduates as well as people who want to get stuck into a job straight from school. And there are plenty of opportunities for self-employment in this industry, so it's ideal for those who fancy being their own boss one day.

How can I start a career in publishing and media?

Some jobs in this industry don't require any academic qualifications at all, while for others a degree can be essential. One or two may even require a post-graduate qualification too. With vocational roles (florists, farm workers, gardeners, etc), specialist colleges offer a range of courses in areas such as animal care, trees and timber, game and wildlife management, and land-based engineering. The Landex website has a list of land-based colleges and universities in the UK.

Apprenticeships are another way into working in agriculture and the environment. Programmes are varied, covering areas as diverse as arboriculture (tree care and management), ecology, farming, floristry, forestry and horticulture and spanning the full range of apprenticeship levels, from intermediate to degree.

Careers such as botanists and landscape architects will all need a relevant degree such as ecology, conservation biology, plant science or landscape architecture. In some cases, you may be able to gain this qualification through an apprenticeship, while for more scientific roles, university may be the best option. They may also be expected to work towards a post-graduate qualification. In other roles, such as farm manager or environmental manager, a degree – in agriculture or environmental engineering for example – will give you a head start.

UNIVERSITY INFORMATION

Online Subject Tasters with the University of Sheffield

Throughout the Autumn term, there are many free opportunities for you to experience what it is like to study different subjects at the University of Sheffield.

Real Estate Open Day with the University of Reading and Pathways2Property

Are you interested in a career in the property industry?

The University of Reading are running a Real Estate Insight Day on 19th November in Manchester to help you discover more about careers within the property industry. You will go on a site visit, work on a small project and have a Q&A session with both current and recent Real Estate graduates who are now working in the industry. You will also be assisting students throughout the day. The day will be fully funded by Pathways2Property including travel costs to and from the venue!

On completion of our Summer School or an Insight Day they will provide where possible, work experience opportunities for October half term, e-mentors and the opportunity to apply for a bursary of **£30,000** should you go on to study a Real Estate related course at any British University.

Click [here](#) for more information - Applications close on 20th October so be quick!

Leeds Futures - Healthcare

The Leeds Futures - Healthcare programme is designed to inspire and support Year 12 students interested in pursuing a career in health and social care, who may not yet be sure on which profession is the best fit for them. It will help you develop your skills and subject knowledge, giving you the opportunity to take part in talks, workshops and other enrichment activities alongside your current studies.

Fortnightly sessions will be delivered online via Zoom. University staff, current students, and guest speakers will deliver content, with opportunities for you to interact and participate. You will also have the opportunity to visit the University of Leeds for a campus day, to delve deeper into your chosen subject, meet your fellow participants, and find out more about studying at university.

For more information, click [here](#).
